

# IMPROVING CARE FOR PEOPLE IN SCOTLAND

## A FOCUS ON DETERIORATION : PREVENTION, RECOGNITION AND RESPONSE

TUESDAY 29 NOVEMBER 2016 AT THE EDINBURGH INTERNATIONAL CONFERENCE CENTRE

Planning is underway for this year's Scottish Patient Safety Programme Conference. To find out more and to register contact your SPSP programme manager.

The event will bring together a community across health and social care to learning and help drive safer care for people across Scotland.

By attending the conference you will have the opportunity to:

- celebrate success that teams have achieved in reducing harm in health and social care services across Scotland and beyond
- share practical approaches to prevent deterioration and improve outcomes, and
- network with delegates to learn from their experiences of an integrated approach to prevention, recognition and response to deterioration.
