

Granma Pat

David McDonald - Son-in-Law

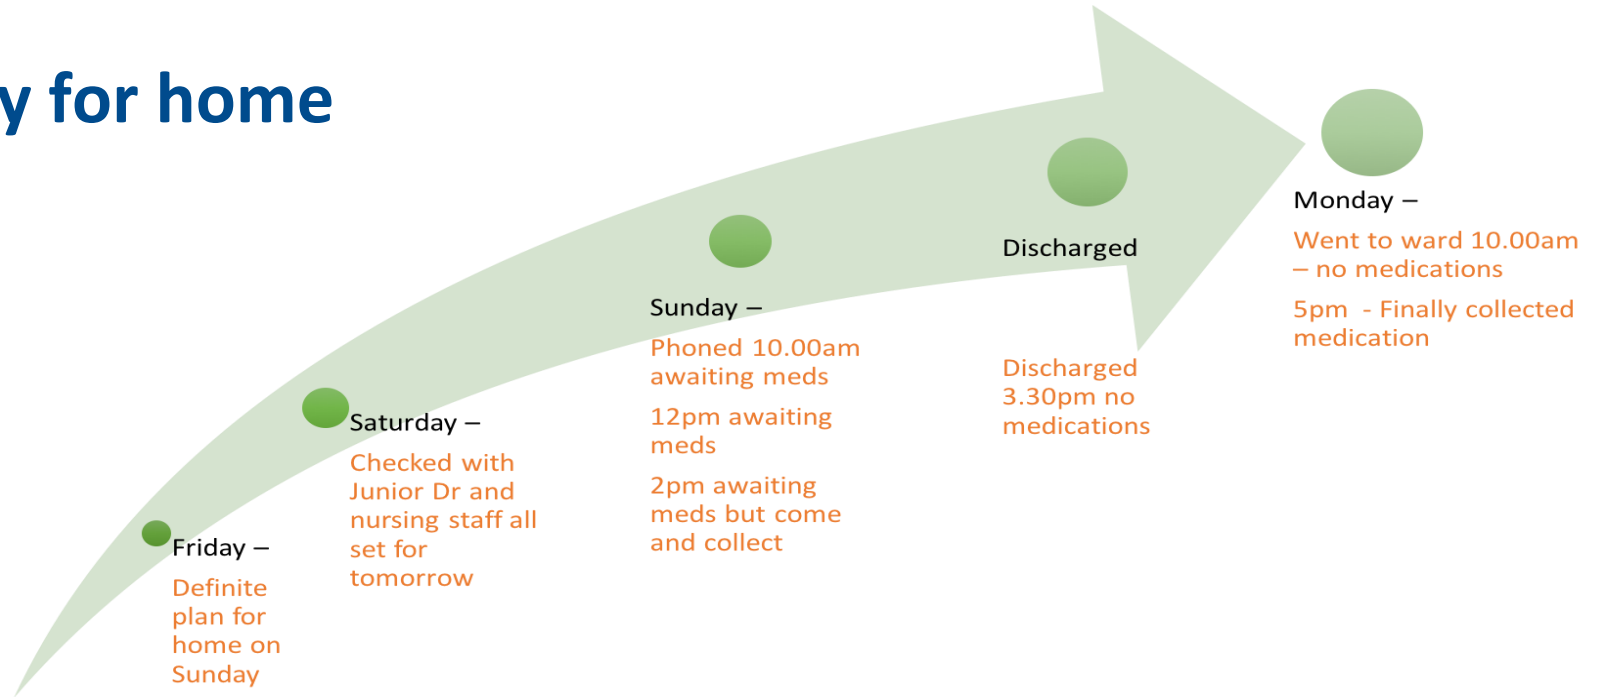

MEDICINES

Granma Pat

- 9 weeks post-surgery
- Had been in hospital for 4 weeks
- Week 5 - total bowel resection
- Friday surgery
- Ready for home one week later

Ready for home

Tommy Burns

- ‘it could be the worst game of football ever.... however if you score in the last minute or even worse they do.... what do you think people remember about the game?’

What had we been waiting for??

- All drugs came in a white box with the same label
- Only two drugs were out-with her normal routine medications
- D/C letter stated one step down regime for steroids and hand written note stated another regime
- Putting dosage of steroids to take (rather than number of tablets) was confusing
- If it wasn't for my background knowledge and explanation, how would she and her husband managed?
