

Title	Date	Time	Location
Falls Networking Day	Wednesday 30 May 2018	09:45 – 15:15*	theStudio, Glasgow

The aims of the Networking day are to:

- Report on the findings from a series of case studies undertaken with boards to explore the factors contributing to successes in preventing and reducing falls and falls with harm.
- Discuss next steps for improvement activity around falls.
- Explore falls prevention in the person-centred context of maintaining bone health, mobility, cognitive and psychological wellbeing.
- Understand the impact of communication, education and multidisciplinary team working for falls prevention across the patient journey.
