

Joint Community Equipment Streamlined Pathways

SCENARIO 2 (Physio provision of ADL equipment)

Mrs Docherty has been identified as being at risk due to mobility problems and is visited by the community Physio:

- As part of the therapeutic input the Physio also identifies equipment needs:
 - walking aids
 - grab rails
 - raised toilet seat
 - chair raisers

Ordering the equipment:

- The Physio will order all the equipment from the Store service and liaise with the service user to confirm delivery arrangements/timescales

Follow up and conclusion of the assessment:

- The Physio will carry out follow up visit/contact as required, to conclude the assessment process for provision of all interventions.
