

HOUDINI -The Urinary Catheter Disappearing Act Assessment

Does your patient meet this criteria?

Heamaturia - Frank, Visible

Obstruction - Urinary, Retention

Urology or Major Pelvic Surgery

Decubitus Sacral Ulcer - open sacral or perineal wound in an incontinent patient.

Input / Output - Hourly fluid balance monitoring

Not for Resus /Palliative comfort (alternatives must be considered)

Immobility - unstable fracture, poor balance

If NO is the answer to the above criteria, then make that urinary catheter disappear!
