Improving Care for People in Scotland, a Focus on Deterioration: Prevention, Recognition and Response

Joanne Matthews
Head of Safety, Scottish Patient Safety Programme, Healthcare Improvement Scotland

#SPSconf16
Deterioration
Our prime purpose in this life is to help others and if you can't help them at least don't hurt them.

Dalai Lama
Outcome 7: People using health and social care services are safe from harm
Prevention
A framework for the measurement and monitoring of safety
Coaches & Team Official’s Code

Take ownership of player well-being
Maintain the safety and well-being of your players at all times
‘Chicks with sticks’
Recognition
It’s not about what tools you have, it’s about what you do with them that counts
Response
Coaches & Team Official’s Code

• Develop open, positive relationships built on mutual trust and respect

• Promote collaboration

• Communicate effectively and clearly define roles and responsibilities

• Agree goals
Structured
