# Non-Steroidal Anti-Inflammatory Drugs (NSAIDs) Safer Care Bundle

---

NSAIDs are associated with more emergency hospital admissions due to adverse drug reactions than any other class of medicine.

In 2018, the NSAIDs Communication Care Bundle was introduced and the NSAIDs toolkit box distributed to all community pharmacies in Scotland.

Our NSAIDs Safer Care Bundle has now been provided as a supplement to the toolkit. All pharmacists should apply the Safer Care Bundle when performing their clinical check on NSAID prescriptions.

Please see the resources in your pharmacy's toolkit box or visit [www.ihub.scot/pharmacy-pack](http://www.ihub.scot/pharmacy-pack)
