Improvement Hub

Inverclyde care co-ordination for people with dementia programme

Learning Session 3 (LS3)

Wednesday 16 December 2020

Thank you for joining Learning Session 3

We were delighted to host 25 professionals at our third learning session via MS Teams on Wednesday 16 December 2020. The aim of the session was to agree improvement ideas for effective care co-ordination for people living with dementia and their carers in Inverclyde:

- Following completion of one year Post Diagnostic Support and is either living independently in the community or being supported by services
- Transition to palliative and end of life stage

Summary of evidence

Jill Carson, Policy Consultant, Alzheimer Scotland, provided a presentation on what the evidence says and an overview of the Midlothian Experience. You can find out more on the ihub website - <https://ihub.scot/dementia-integrated-care>

Case study discussion points

Dr Sarah Luty, GP, Dorema Surgery, Kilmacolm presented a though provoking case study on the experience of a person living with dementia. Participants were invited to think about what went well and what could have gone better in the context of Care Co-ordination.

Reflections on the Critical Success Factors

Critical success factors

Lynn Flannigan, Improvement Advisor, Healthcare Improvement Scotland presented a summary of the 12 Critical Success Factors. You can view more information on our website - <https://ihub.scot/dementia-integrated-care>

Having representation from many services within Inverclyde HSCP. Case study promoted lots of relevant and appropriate discussions

GP Case Study worked well - promoted a lot to think about, and how we can work together to achieve better outcomes

Pulling together the evidence around care co-ordination then applying this to a real life situation through the case study

The opportunity for discussion and feedback was great

Excellent presentation from Jill Carson, giving good insight into positive outcomes from the Midlothian project

Feedback

Thank you to those who completed our evaluation by sharing what you thought was good and what could be improved about the event.

Next steps

Discussions from the event will inform action planning going forward and we'll be in touch with more information about the next learning session in due course but in the meantime please keep in touch and if you would like access to the Knowledge Hub, where you can find out more about the programme please email his.focusondementia@nhs.scot so we can send you an invitation.
