

HIS CTAC Network One Year Anniversary

The CTAC network aims to represent all healthcare professionals with a role in the design, implementation and delivery of CTAC services.

Currently has:

- 129 members
- 14 NHS boards

HIS CTAC Network teams channel

- 3 specialist subject sub-channels
- 94% of members highly likely/likely to use channel to communicate out with virtual session

HIS CTAC Network sessions

- 6 network sessions
- 30+ attendees per session

Topics covered include:

- Progress with service development
- What will success look like
- Key indicators
- Learning and reflections
- Network ways of working
- Key stakeholders
- Sharing successes and key learning

Really value the opportunity to link with CTAC teams across Scotland

Really useful session...great to hear what's happening across the country.

Great network – great resource

Good to see the network evolving and growing with great contributions...so helpful

Interesting to hear the diversity of models and developments.

I could listen to this all day ! Great to hear from everyone. Looking forward to future meets
